Terry Living in an age with 24/7 coverage of disasters, wars and generally depressing news could easily be a recipe for national learned helplessness. I'm reading "Be the Change" and am reminded page after page, one uplifting story after another, that I'm surrounded everyday by amazing people who are keeping hope within easy reach whenever it's needed. From the household wisdom of countless community volunteers to the heart felt perspectives of iconic national leaders, it's a book that offers new ideas and fresh inspiration for getting going on them. I also love Editor Nunn's lists of books and quotes that inspire. I look forward to giving this book to my organization's management group as well as to my family for the holidays. It's an inoculation against cynicism and despair and an
