Steve Nison : Beyond Candlesticks: New Japanese Charting Techniques Revealed (Wiley Finance) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Beyond Candlesticks: New Japanese Charting Techniques Revealed (Wiley Finance):

4 of 4 people found the following review helpful. Not a bad book but i believe it is only a supplement ...By A simple subjective reviewerNot a bad book but i believe it is only a supplement but Nison's more famous book. You won't gain very much from reading it as i don't think you will lose much by passing it. I am neutral concerning this book.2 of 2 people found the following review helpful. It's ok...By Mr. Ross GordonIt's ok, but nothing like the first two books. You can tell they were well written and a lot of time went into them - this book, you really get the feeling it was a bit of a rushed job. Nothing much new to learn except some weird forms of charting that are really just variations of one another.2 of 2 people found the following review helpful. Must readBy Kevin G PenroseIf you trade for a living this it

the book!

From the "Father of Candlesticks"--penetrating new Japanese techniques for forecasting and tracking market prices and improving market timing Steve Nison has done it again. The man who revolutionized technical analysis by introducing Japanese candlestick charting techniques to Western traders is back--this time with a quartet of powerful Japanese techniques never before published or used in the West. Stunningly effective on their own, these new techniques pack an even greater wallop when teamed up with traditional trading, investing, or hedging strategies, and Steve Nison shows you how to do it. Beyond Candlesticks provides step-by-step instructions, detailed charts and graphs, and clear-cut guidance on tracking and analyzing results--everything you need to pick up these sharp new tools and take your place at the cutting edge of technical analysis. Critical praise for Steve Nison's first book . ". destined to become the classic reference on the subject." --Charles Lebeau and David Lucas Technical Trader's Bulletin "I believe Steve Nison's new candlestick book is destined to become one of the truly great books for this time period.. Whether you trade futures, commodities, or equities, day trade or hold positions overnight, this book is a must." --Lee Siegfried Investor's Library, Data Broadcasting Corp. "It is hard to be too effusive about the quality of NiSon's work . this is clearly one of the best investment books ever written in terms of covering a subject with pedagogical ability and writing skill. The organization is impeccable . reading it was a pleasure." --Commodity Traders Consumer Report
