**Ella L. J. Edmondson Bell PhD, Linda Villarosa : Career GPS: Strategies for Women Navigating the New Corporate Landscape** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Career GPS: Strategies for Women Navigating the New Corporate Landscape:

1 of 1 people found the following review helpful. For Every Woman in the Workplace By Brooke M. Simmons This book... Is one of my most treasured this year. After hearing Dr Ella Bell speak at a national conference, I was

compelled to pick this up! It is more than a book- it is a guide to keep in your toolbox throughout your career. From her advice, I have been able to not only build confidence but get clear about my direction and how I communicate my message. Highly recommend this book to women of all levels and experience in the corporate world. 1 of 1 people found the following review helpful. A must-read for career women, especially those starting out. By HappyGoLucky I have recommended this book to close friends and strangers, all of whom shared positive feedback on Ella Bell's sage guidance. Self-awareness is a key theme in this text. Professor Bell does a fantastic job of asking her readers to reflect on who they are, who they want to be, and who they should be. I appreciate how she shares her own journey of discovery with her readers. This text is a must-read for all career women, especially early career professionals. However, men can certainly benefit from this too! 0 of 0 people found the following review helpful. One Star. By jess m. One executive/ business version of career. Needed a broader interpretation of work/career . doesn't exactly fit me.

“Career GPS serves as the business coach you never had but always wanted.” —Lois P. Frankel, Ph.D., author of *Nice Girls Don't Get the Corner Office* and *See Jane Lead* Career GPS is a clear-eye, timely, and thought-provoking guide for any woman looking to advance up the corporate ladder and/or optimize her performance in any work environment, no matter what the state of the economy. Presented by Ella L.J. Edmondson Bell, Ph.D., founder and president of ASCENT — Leading Multicultural Women to the Top, and Linda Villarosa, award-winning former editor at *Essence* magazine and the *New York Times*, these “Strategies for Women Navigating the New Corporate Landscape” belongs on every working woman's bookshelf.

From Booklist Bell, a business professor at Dartmouth's Tuck business school, looks back over her own journey from a working-class family in the Bronx to offer basic advice on how women of whatever background can advance themselves in the business world. Her book is aimed at women in various stages of their careers: just starting off, in midcareer, returning after raising children, or recovering from job loss. She begins by advising women to develop self-knowledge, firmly understand what they want from their careers, realize what they have to offer, and recognize the importance of bringing the total self into the job rather than compartmentalizing their work and personal lives. She goes on to offer advice on developing a career strategy: finding mentors and recruiters, business and social networking, maintaining a global perspective and techno-savviness, and forging a balance between work and family life. Bell intersperses her advice with vignettes of her experiences as a business consultant and professor. Engaging and sound advice for women looking to advance their careers in business. --Vanessa Bush “If you are a woman who wants to get to the top of the house, you must read this book. Career GPS provides a vital road map for how women can navigate their way to the C-suite in a rapidly changing workforce.” From the Back Cover Whether you're looking at the CEO seat, an executive manager slot, or a more intrapreneurial position, Career GPS has what every woman needs to achieve her career goals. An authority on career development, Dr. Ella L. J. Edmondson Bell, Ph.D., offers valuable guidelines and essential tips for maximizing a review, networking in a relevant way, and much more. Combining Dr. Bell's knowledge and expertise with dozens of first-person stories from female achievers who rose through the ranks, Career GPS will guide women of all cultures, ages, and range of experience to success at every level in a dynamic new corporate marketplace.
