This book is a treasure !!!By CustomerThis book happened to be a valuable tool in my life at the moment I read it as I was unemployed so Zoe resonated with me a lot, and I am so happy for that as I have learned things I ever imagined-and have found out I was not so wrong in others when looking for a job (Been selective not for me but looking as if I could really put value on those opportunities I didn't take.)This is a must read book and I think it should be assigned in high school. I loved chapter 5 as I love networking and masterminding, eventhough I am new on that, and how great it is that I can learn of this too with this reading. It is a very wide guide Dondi Scumaci gives us here, many important topics, as the law of value for example, brilliant people quotes and the public announcements are just fantastic, I loved them.I actually found a job and I did great in the interview as I got new perspectives of being an excellent employee. This book is a great manual for having success in our jobs.I have learned about branding myself and finding what is that I have that distinguishes me. THIS IS GREAT.2 of 2 people found the following review helpful.
