before purchasing it in order to gauge whether or not it would be worth my time, and all praised Global Automobile Demand: Major Trends in Mature Economies; Volume 1:

Global Automobile Demand is a two-volume work analysing the impact of the Great Recession and the structural factors which shape automobile demand in developed and emerging countries. The first volume of Global Automobile Demand examines the automobile demand in mature economies: the USA, the UK, France, Germany, Spain, Japan and Korea.

About the Author Bruno Jetin is Assistant Professor of Economics at Universite Paris, France. He has published widely on the automobile industry, as well as on labour issues and development, and has presented his work at various international conferences. Bruno is a member of the steering committee of the GERPISA-International Network - a group for the study of the Automobile Industry and its employees. "
