From Wiley-ISTE : Global Consumer Behavior before purchasing it in order to gauge whether or not it would be worth my time, and all praised Global Consumer Behavior:

Globalization is a leading force for industry worldwide, especially the new technology sector. This presents both problems and opportunities in the emergence of a new type of consumer and the effects of globalization on industry in terms of culture, economics, marketing, and social issues at every scale from local to global. The main aim of the book is to enhance the readers's knowledge ndash; especially from a multidisciplinary perspective rather than from an

individual functional perspective ndash; of international consumer behaviour. It also explores the role of globalization in the evolving world of the new technology sector and provides an overview of the development of international consumer behavior from historical, geographical and social perspectives, while focusing on new technology products and services. Professionals, students and researchers working in the fields of new technologies and information and communication technologies (ICT) as well as specialists of marketing and management are the target audience for this book. At the same time, the book will be pitched at a level so as to also appeal to a more general readership interested in globalization.

From the Back Cover Globalization is a leading force for industry worldwide, especially the new technology sector. This presents both problems and opportunities in the emergence of a new type of consumer and the effects of globalization on industry in terms of culture, economics, marketing, and social issues at every scale from local to global. The main aim of the book is to enhance the readers' knowledge ndash; especially from a multidisciplinary perspective rather than from an individual functional perspective ndash; of international consumer behaviour. It also explores the role of globalization in the evolving world of the new technology sector and provides an overview of the development of international consumer behavior from historical, geographical and social perspectives, while focusing on new technology products and services. Professionals, students and researchers working in the fields of new technologies and information and communication technologies (ICT) as well as specialists of marketing and management are the target audience for this book. At the same time, the book will be pitched at a level so as to also appeal to a more general readership interested in globalization. About the Author Chantal Ammi is a Professor at the National Institute of Telecommunications, Evry, France, head of MINT laboratory.
