Singapore Risk Management Institute : Global Credit Review : Volume 3 before purchasing it in order to gage whether or not it would be worth my time, and all praised Global Credit Review : Volume 3:

Global Credit Review is an annual publication that provides an overview of the most important developments in global credit markets and the regulatory landscape. The third volume provides some critical analysis, reviews the introduction of new regulations and also offers new insights to address the challenges ahead. The carefully selected chapters touch on current topics such as: the measurement of systemic risk, reserve requirements and its role in monetary policy, the application of the Basel II default definition by credit risk assessment systems, and changes in credit portfolio management, amongst others. Recent evolutions of the Risk Management Institute's Credit Research Initiative are also reported, including a comprehensive overview of the technical details on the implementation of the current RMI-CRI corporate default prediction model. With its distinctive focus on topics related to credit markets and credit risk, this is an invaluable publication for finance professionals, policy makers and academics with an interest in credit
