Piya Mahtaney : Globalization and Sustainable Economic Development: Issues, Insights, and Inference before purchasing it in order to gage whether or not it would be worth my time, and all praised Globalization and Sustainable Economic Development: Issues, Insights, and Inference:

In a world in transition and an era of transformation, Mahtaney calls for reflection and an analysis of a wide canvas of global economic experience. Her new work initiates a thorough review of the strategies and policies that have been pursued over the past two decades. The economic meltdown compelled the beginning of the next phase of globalization and she contends that the future will see an increase in globalization. As crucial questions arise about the direction in which globalization is headed and the sustainability of economic growth and reform, the fundamental objective of this exciting work is to elucidate crucial insights about the next phase of development in the world economy.

"Piya Mahtaney's latest publication is on sustainable development, a subject of immense contemporary relevance globally. Mahtaney ably deals with the subject matter. Her analysis of key elements required to sustain development is well-reasoned and raises pertinent issues. As she rightly observes, sustainability is the life line of the future and has far reaching implications in the economic, social and political spheres." Mino Shroff, Chairman, A.D Shroff Trust and President, Forum of Free Enterprise, India "Mahtaney presents a fresh perspective on the economic situations in the US and the EU, which is achieved by comparing the systemic failings and current challenges of the two largest developed economic areas the Eurozone and the United States to the those of the biggest two emerging economies, India and China." - Journal of Human Rights in the Commonwealth About the Author Piya Mahtaney is a Visiting Lecturer for the Economics faculty at St Xavier's College, India and Xavier's Institute of Communications. She is also a council member of the Forum of Free Enterprise and the author of Economic Con Game (2002) and India, China and Globalization (Palgrave, 2008). Mahtaney has also worked as a senior feature writer for the Economic Times, India.
