Harry Castleman, Christopher Niewoehner : Going to Law School: Everything You Need to Know to Choose and Pursue a Degree in Law before purchasing it in order to gauge whether or not it would be worth my time, and all praised Going to Law School: Everything You Need to Know to Choose and Pursue a Degree in Law:

0 of 0 people found the following review helpful. Law school = big decision. This helpsBy BillLaw school is a WHOPPING big decision. This book (along with several others) helped me decide NOT to go - and I've not regretted

the decision. While there are other books like this, this one was one of the better ones (I read almost a dozen). 0 of 1 people found the following review helpful. Four Stars By aida khodadad Comprehensive book 4 of 5 people found the following review helpful. an absolute must-read for anyone thinking about law school By A Customer The best thing about this balanced, comprehensive review of law school is that it does not assume that everyone should go to law school. It provides a detailed description about what a law student's life is like and carefully lays out both the costs and benefits of getting a law degree. Those who are dead-set on going to law school might want to skip ahead to the sections on applying, but anyone who is even mildly curious about what law school is like would benefit from the authors' depictions. The book also provides sound advice on deciding where, when, and how to apply; the calendar in the back is especially helpful. Although those who, like me, have already graduated college may find some of the advice on how to choose a major a little belated, the book does its best to be relevant to both younger and older students and doesn't make any assumptions about financial resources or academic qualifications, either. All in all, this book is a well-written primer for anyone thinking of becoming a lawyer.

Is a career in law right for you? Thinking of attending law school? Where should you apply? The verdict is in: This comprehensive guide has the answers to all your questions. Written from the perspectives of a veteran lawyer and a recent law school graduate, this guide covers every aspect of preparing for and pursuing a career in law. *Going to Law School?* takes you through the entire process--from what you need to do before applying to what you can expect during law school to what career paths you can follow after graduation. You'll find: * Straight facts on the application and admissions process * Tips on studying for and taking the LSAT * Advice on determining which law school is right for you * An insider's look at how law schools operate * A thorough survey of career options.

From the Publisher This nuts and bolts guide to choosing and getting into law school helps students take the first steps on the road to a career in law. Written by a current Harvard Law School student and a practicing attorney, it offers advice to prospective law school students on everything from taking the LSAT to determining which academic and non academic activities are best for law school applications and choosing which schools to apply to. It offers career alternatives presented by a law degree in academia, business and the public sector. From the Back Cover Is a career in law right for you? Thinking of attending law school? Where should you apply? The verdict is in: This comprehensive guide has the answers to all your questions.
