Luckily I only paid about 5 bucks for the book so it wasn't that much of a loss but either way it was TERRIBLE service; in fact it was NO service at all.0 of 3 people found the following review helpful. great!By valerie emanuelthis book is amazing or college students or people who have got degrees and dont now what to do with thememphasis on volunteer work and internships in your field!23 of 26 people found the following review helpful. Great jobs?By Suzi MThis book was not that informative to a person with even a small knowledge of art. The title makes it sound like there is a long list of unique and fun jobs, but more than half the book is basics about how to find and apply for a job- any job, not a great job. It only talks about 5 BASIC paths that any idiot would already know about. If you need to know the BASICS get this book.

Answers the question, "What can I do with a major in . . . ?" This series helps students explore career options within their field of study.
