Abdul Abiad, Ashoka Mody, Susan Schadler, Daniel Leigh : Growth in the Central and Eastern European Countries of the European Union (IMF Occasional Paper) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Growth in the Central and Eastern European Countries of the European Union (IMF Occasional Paper):

The central challenges facing the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia, and Slovenia as they work to catch up to advanced European Union (EU) income levels are discussed in this new book. Focusing on the region's growth performance, and outlining two growth scenarios that illustrate the range of investment and productivity growth rates under the income catchup objective, the authors draw upon extensive

resources to identify strengths and weaknesses.
