By Gordon XI read this book as part of my exploration of the HBR "10 Must Reads" series. In typical HBR style, this book contains an eclectic collection of articles which come together to provide one of the most comprehensive tomes I've seen on business and personal strategy. I recommend it to anyone who is trying to understand the core concepts of strategy, especially those who need to identify and separate various tactical actions and operational principles from the underlying strategic principles. I found these insights from some of the world's brightest minds to be just what I needed to properly set me on the path to become a much more strategic leader. 5 of 5 people found the following

review helpful. HR knowledge that everyone can use
By Rosie O'Storrs I have worked in the HR field for over 7 years and I still found these books very helpful. They are written for the layperson in easily understandable language. The topics range from difficult employees, personal growth in the work place and the heart stopping change management. All of these topics I deal with on a weekly basis in a university setting. If you are looking for light reading that is packed with useful information I would recommend this set.
7 of 8 people found the following review helpful. There is simply few books more worthwhile than this
By Robert Kirk This collection of HBR's finest articles is second to none. A great investment for any student or professional who has a life long desire to learn from the best. I've been a reader of HBR since I started my MBA and I feel this collection will be referenced throughout my career. In summary, only HBR's best work makes the pages and this reference set will help you immensely throughout your life.

Change is the one constant in business, and we must adapt or face obsolescence. Yet certain challenges never go away. That's what makes this book "must read." These are the 10 seminal articles by management's most influential experts, on topics of perennial concern to ambitious managers and leaders hungry for inspiration--and ready to run with big ideas to accelerate their own and their companies' success. If you read nothing else - full stop - read:
Michael Porter on creating competitive advantage and distinguishing your company from rivals
John Kotter on leading change through eight critical stages
Daniel Goleman on using emotional intelligence to maximize performance
Peter Drucker on managing your career by evaluating your own strengths and weaknesses
Clay Christensen on orchestrating innovation within established organizations
Tom Davenport on using analytics to determine how to keep your customers loyal
Robert Kaplan and David Norton on measuring your company's strategy with the Balanced Scorecard
Rosabeth Moss Kanter on avoiding common mistakes when pushing innovation forward
Ted Levitt on understanding who your customers are and what they really want
C. K. Prahalad and Gary Hamel on identifying the unique, integrated systems that support your strategy
