As the Book Description says, "How to Use Your Military Experience to Master the Interview addresses the particular issues, questions, fears, and mental roadblocks that you as a veteran may encounter as you re-enter the civilian workforce, and how you can overcome these challenges to acquire the skills you need to

excel at the interview process. "I have conducted numerous interviews and have often felt that many of the best candidates fail to impress the interviewers because they were not oriented to the process and dynamics of interview. Thus even if an individual like I understand their strengths, they do not get hired because the rest of the interviewers were not impressed by them. My Observation:*** This is not a general-purpose interview-guide*** This is a superb book for a particular niche of people and it does its job well -- very well to be honest.*** It gives good introduction to topics like pre-interview preparation up to the way one should present oneself to the interviewers.*** Reading this book can make a substantial difference to this niche group for which this book has been written*** The book is well researched, well written, and is authoritative in its field*** I strongly recommend this eBook to those with a Military background now trying to get a job placement

Support aBy William A Brown JrExcellent book, Hiring our heroes is a fantastic effort to bring our military families back to a life they deserve. Support our soldiers while in combat, at home and after military service. Freedom Does come cheat and many lay down their lives to protect our way of life. As we say in New Hampshire Live Free or Die. Thank all who have served from all wars and conflicts and in times of peace. Without our military our way of life would not be. Thank you for your service. I served during Vietnam, a very different time. I have had lately people say "Thank you for your service." That meant a lot, please do the same for everyone you know who has served and is serving. God Bless America!

OkayBy Yogi-Bearall this book did was inform me of the tools i already received from varies other transaction classes the military offer, local employment offices offered, and other forums that assist Heroes in preparing for life outside the Military.

Our returning troops and their family members can offer an extraordinary combination of leadership, dedication and technical expertise in today's civilian workplace. The information and advice contained in this book is designed to prepare our service members to successfully make the transition from active-duty service to a meaningful job here at home.

Going back to work after being in the military can be a daunting yet rewarding experience. As a veteran re-entering the workforce or looking to change jobs, you may face a unique set of challenges as you become accustomed to civilian situations, expectations, and demands. Your recent experiences may be very different from those of the average civilian candidate. This is part of your advantage and what sets you apart from other candidates, but it also can contribute to these unique challenges. As you go through the job-interview process, you may need to learn to align yourself with new protocols, environments, and codes of behavior. You may also be learning to adapt to civilian life with certain physical or invisible difficulties, such as hearing loss, that are the result of your military service.

In *Heroes Get Hired: How to Use Your Military Experience to Master the Interview*, author Michelle Tillis Lederman addresses the particular issues, questions, fears, and mental roadblocks that you as a veteran may encounter as you re-enter the civilian workforce, and how you can overcome these challenges to acquire the skills you need to excel at the interview process. Featuring contributions from IAVA and MSCCN, this free book sheds light on the specific strengths and competitive advantages that you as a veteran bring to the civilian workforce, and how you can make sure to communicate these qualities to a recruiter or potential employer. This edition features a video message from Medal of Honor Recipient Col. Jack Jacobs, Ret., and 20 videos that demonstrate best conduct during the interview process.
