information it's hard to ...By BoJohn's books are always very inspirational and full of outstanding advice from the standpoint of a successful business leader as well as coach, trainer, mentor as well as a motivational speaker. Many of his books have such great amounts of advice and useful information it's hard to not rate his material with 5 stars and suggest to get your own hard copy for both your private and business library. John writes his materials using his abundant years of experience as a business leader and equally important from a Christian point of view, as he is not only a solid business leader, but is also a Pastor and fellow Christian. He sends the message of and practices what he "preaches" because he is a serving leader and not a self serving one. He practices and stresses being a mirrored image of the type of person your followers can look up to and he constantly is helping develop other leaders and team members to allow them to constantly grow and improve. John is one who shares his wealth of knowledge and is a very inspiring person both as a business leader and as a Christian, father and all around friend. I hope my review of his book helps answer any questions about his material and please feel free to ask about any of his books, as I have all of his literature. I'm a very solid fan and believe in his works as being reliable sources of material for any business leader or person wishing to improve themselves or their team. 1 of 1 people found the following review helpful. Valuable read By Lynn67 I like Maxwells books, but this one is outstanding. This book will not only help you excel in your professional life, but in your personal life too. It really forces you to take a good look at your own attitude and your personality. I hate to label it as a "self Improvement" book, but it will help you improve yourself and benefit you professionally also. If you make hiring decisions in your professional life, this is a very valuable read. I like the format of the book and how I can pick it up if I have a little time, read a short chapter and get something to think about. 1 of 1 people found the following review helpful. Attitude is determinant By N. H. Chapa Gonzalez A comprehensive study on how attitude is shaped and driven for achieving more in the personal life.

How high will you climb? John Maxwell says it all depends on your attitude. Nose up or nose down? Just as the angle of an airplane determines its altitude, so does the approach we take to family, to work, to life in general determine the attitude we present the world. The way we solve a problem is often secondary to the approach we take in facing the problem, our outward expression every bit as critical as the inward struggle. When the skies above appear stormy, how will you steer that internal plane we call attitude? With *How High Will You Climb?*, author John Maxwell presents detailed lessons on the single invaluable quality that has become a person's primary force toward success. As the world around us delivers challenges all the while marching on at its own inevitable pace, the attitude we choose affects each of us individually. And yes, an attitude can be chosen. Attitude is easy in times of joy and progress. But how do you handle the failures sure to interrupt the attainment of goals? What happens to us is often quite different from what happens in us. Calling the Bible a "handbook on attitude performance," Maxwell emphasizes we are never actually flying solo. God supports our approach to problem solving and helps steer the attitude adjustments necessary to think correctly in a sometimes negative world. With a study guide to help evaluate and build upon your own flight angle, *How High Will You Climb?* establishes the fundamental elements for a steady, durable flight of life.
