If you are just out of school...By Terry PileThis book is aimed at the younger job seeker or students still in school. It does a decent job of helping them identify strengths and how to market themselves. It has a good section on using social media. It doesn't go into any area too deeply, but is a broad brush stroke to the job search process. It comes with a CD which is nice if sitting down and reading a book is

not your thing.

This book shows recent graduates how to find hidden work opportunities, sell themselves effectively to employers, network, and create effective marketing tools beyond the traditional resume or CV.
