Awesome way to introduce forex to the novice. Its my second copy of this book. I gave this one as a gift.0 of 0 people found the following review helpful. Just okBy OsahonI think this book is just ok for beginners. It explains Forex basics well enough. However it does spend alot of time recommending the use of their software, a sample of whihch is included in the CD that comes with the book.Although its called a sample pratice software, you actually have to open an account before you can use it.

A roadmap for success; the strategies to use and pitfalls to avoid.
