Christeen Skinner : The Financial Universe: Planning Your Investments Using Astrological Forecasting before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Financial Universe: Planning Your Investments Using Astrological Forecasting:

8 of 8 people found the following review helpful. Seeing StarsBy Elliot MalachThis is a great intro book to a very complex subject. I've read a few others on how astrology influences events on Earth, and each book adds something new. As an updated version of a book previously published, it is interesting to see how her predictions came to

fruition. It will be even more interesting to see how what she predicts for the next 10 years comes to pass. The author not only discusses how planetary positions within the zodiac signs affect wars, conflicts and financial markets, but also shows how sun spot activity and eclipses have an influence. I would have given the book 5 stars if she had shown charts of the planetary configurations to illustrate the predictions. The book is very easy to read, even for anyone without any previous knowledge of astrology. 0 of 0 people found the following review helpful. Interesting Subject By kelly howard By an astonishingly interesting writer. I have taken some courses from Christeen Skinner where I have always been impressed by her knowledge. I don't know a lot about astrology, but Christeen does, and she has the knack of passing on her knowledge. Financial astrology is extremely interesting and Christeen knows her subject. I have not finished the book; not the type of book you want to rush through....but I have gained a lot of knowledge. 0 of 0 people found the following review helpful. Excellent By Steven Outstanding astrologer. Outstanding material. Highly recommended

Written by one of the world's foremost financial astrologers, this work highlights the periods to maximize investment returns while minimizing portfolio losses through exposure to geopolitical events and circumstances and financial market hotspots. This important new and revised text maps out potential responses by international stock markets to world events that are predicted between now and the year 2020. With no previous understanding astrological terminology needed, *The Financial Universe* makes deconstructing the complex relationships of planetary alignments, sun spot patterns, and other cosmic influences that impact on personal financial well-being easy and approachable. An absolute must read text for professionals in financial services and related industries; it is also a perfect resource for anyone who relies on the future for business and personal planning.

About the Author Christeen Skinner operates a business consulting practice in London. She is a former chair of the Astrological Association of Great Britain, was a council member of the faculty of Astrological Studies, and is a Trustee of the Urania Trust. She has appeared on CNN, the BBC, Sky Broadcasting, and numerous international television stations.
