E. Owen-Smith : The German Economy before purchasing it in order to gage whether or not it would be worth my time, and all praised The German Economy:

Germany is clearly the dominant economic force in Europe. It occupies the pivotal position of being at the centre of both the EC and of attempts to rebuild the economies of East Central Europe. The German Economy traces the various aspects of German policy and growth, concentrating in particular on the last two decades. These include: the German economy in perspective the regional dimension fiscal policy monetary policy social policy the labour market banking and

finance industry, trade and economic policy. In *The German Economy* Eric Owen Smith has produced the only comprehensive account of the contemporary German economy currently available in English.

The German Economy is a comprehensive account of key aspects of German policy and economic growth over the last two decades.... This book is an excellent resource for scholars from many disciplines engaged in research on contemporary German and European topics. —German Politics and Society
