stimulated more research for me into the types of investments he recommended, some of which I'm really keen on. As I'm in Australia, I'll have to adjust and modify for our local market but that's not hard to do. 1 of 1 people found the following review helpful. Trustworthy advice By Mary Robin J Excellent and trustworthy guidance from a veteran in the biz. Google author Alex Green and view his work with The Oxford Club (an online investment newsletter source, which I subscribe to); we all need to take charge of our own finances and this is about as easy as it gets. Balance your portfolio once/year; what's not to like? It's an easy read, too; Green's writing style is very approachable. I also attended one of his seminars and he's just as nice in person. Don't do like I did and put it off! Once you get set up with Vanguard, it is a piece of cake. 1 of 1 people found the following review helpful. A wise choice in your selection of this book- WARNING By Terry Ellis Alex is great. I know him from the Oxford club. I track his recommendation on stocks through the club, and he is very good. You would do well to follow his advice. I read a lot of investment articles/books and typically after you're done reading, you say "That was good info, bbbuuutt what do i do next? He doesn't do that, and gives clear direction. I would also recommend joining the Oxford club if your serious about investing. Cant say enough good things about both. OH by the way, WARNING.... dont buy your books from pbstore, they wont let you cancel your order even though it was only 1 minute after ordering. Poor company values, poor customer service in my opinion!!!!
