**From Palgrave Macmillan :** **The Greening of the Automotive Industry** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Greening of the Automotive Industry:

An examination of the greening of the automotive industry by the path dependence of countries and carmakers' trajectories. Three sources of path dependency can be detected: business models, consumer attitudes, and policy

regulations. The automobile is changing and the race towards alternative driving systems has started!
