Patel bull; David Paul bull; John Piper bull; Malcolm Pryor bull; David RogersonDiscover the spread betting rules of a host of top financial markets trading experts.With the vast amount of information available on spread betting - whether in books, magazines, online, in videos or seminars and events - it's not easy to know where to start: How do you know who to listen to and what are the key lessons and tactics to take on board? To help newcomers and experienced spread bettors, Harriman House has compiled this collection of essential spread betting rules ndash; or top tips ndash; from expert traders. The contributors are varied; including bestselling authors, education specialists, key figures at spread betting firms and technical analysts. What they all have in common a knowledge of what is required for spread betting success

and real life experience of trading the markets. In this book experts share what they consider to be the ten most important pieces of guidance that will help spread bettors to improve their profitability. You will see that some of the experts agree on certain points, which is perhaps to be expected, but you will also notice that occasionally some of the rules contradict each other, which is possibly more surprising. The rules here are not intended to be picked up and all followed to the letter; there is no single correct approach to spread betting, or indeed any trading method. It is important to research the various ways others have been successful and then go on to find out what works best for you. This concise book gives you an excellent head start so that you can build on what winning spread bettors are already doing. Study these rules from the best of the best and then develop your own as you take your own steps towards spread betting success.
