Eliane Karsaklian : The Intelligent International Negotiator (International Business Collection) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Intelligent International Negotiator (International Business Collection):

1 of 1 people found the following review helpful. leadership for everyoneBy Professor Ken ParryIn this contemporary fast-paced world, this book should be compulsory for just about everyone. It is not actually about negotiating. It is about leadership ... it is about life. Read it in one night ... and benefit for the rest of your life.

In today's business world, people negotiate every day, everywhere, using techniques learned from various books, experience, and education. Some are more culturally aware and others much less. Some forget that negotiation is, first of all, a human interaction. Some still think that negotiation rhymes with competition. If any of this sounds familiar to you, this book can help. Inside, the author presents strategies, stories, facts, and tools that intelligent international negotiators use in order to succeed in their negotiations worldwide. The unique integrative cross-cultural approach to negotiating will provide a different and innovative perception of what negotiating means today. It also provides the perfect approach to international negotiations from the perspective of an expert who has negotiated in international businesses around the world—more human, more pleasant, and more effective. *The Intelligent International Negotiator* is a ready-to-use book that you will read and digest very quickly, with inputs that you can employ immediately.

About the Author: Director of the Master Program in International Negotiation, The Sorbonne, Paris
