Peter W. Madlem, Thomas K. Sykes : The International Encyclopedia of Mutual Funds, Closed-End Funds, and REITs before purchasing it in order to gage whether or not it would be worth my time, and all praised The International Encyclopedia of Mutual Funds, Closed-End Funds, and REITs:

2 of 2 people found the following review helpful. Nice Christmas (1998) GiftBy Peter DThe major part of this book is made up of two page wide, single line entries for each fund. Entries consist of the usual stats available for free on-line. It would be worth the price to have this information neatly bound in a book - if the data was current, but it isn't. November 1998 mutual fund data is not much use in November 2001 (will this bull market ever end?). No fault of the authors - but not a good buy now.

First Published in 2000. Routledge is an imprint of Taylor Francis, an informa company.
