Mindful living with faith and intelligenceBy AbhishekA simple, easy to read treatise on prioritizing life's abundance toward fulfillment, which comes from serving and connecting with our needs and abilities to the needs and abilities of another. The book offers six simple guiding points that may be used as guide posts on a daily basis. One of the six points is about surrendering to faith, to God, specifically to Jesus Christ. If you are not a Christian or are not a person of faith, do not let this stand in your way of appreciating this gem of a

book. Faith, as with everything else, should not be denied without appropriate experimentation. Science exists and progresses because scientists' faith in the possibility of a solution to the mind-boggling conundrums they face and their faith in their ability to come upon these solutions. For those willing to experiment, they would find faith to be a chief instrument of science. Regardless, if nothing else, the book is a good fun read :) 0 of 0 people found the following review helpful. Read This Book...By J. G. Harber This book was very interesting to read by relating the problems that many face in trying to balance work and family life. Many work hard and place their heart and soul into their careers thus neglecting their family and in watching their children grow. Problems arise and may never be noticed until too late. Fortunately there are those who can get people back on track with what is important. Very good book... 0 of 0 people found the following review helpful. A Life Changed By A Thinking Conservative Christian An email came with recommendation for this book on a dark day. It was a gift from God. I had a Bob in my life when I was just starting out as a pastor. Adrian was so wise, so supportive like Bob. I could hear Adrian speaking to me throughout Bob's counsel to Roger. Deep, profound, passionate, and most of all compassionate. I am newly inspired in my calling as a pastoral care pastor. But now I realize Adrian lives on in me. It's time to pass it on in his honor for the glory of God. Leave a legacy.

Do you ever find yourself losing sight of the important things in life-work and stress can become overwhelming at times. Such is the situation where CEO Roger Kimbrough finds himself in this business parable. The Janitor was inspired by Todd Hopkins's personal experiences of interviewing overqualified retired businessmen for evening shift janitorial positions. Todd's applicants consistently would say they simply needed something to do. In this fable, janitor Bob Tidwell helps Roger to reevaluate how he is leading his business and his life. Bob's counsel is based upon six principles that Todd and coauthor Ray Hilbert discovered have the most impact on succeeding in business while holding together a personal life. Their insightful advice is delivered in a real-to-life story that inspires you to find greater fulfillment in your life. Like so many CEOs in the corner office, still working when the janitor arrives to do the nightly cleaning, Roger is having a difficult and stressful evening when he spills his guts to the older janitor. As their relationship develops, Bob, a retired businessman, promises help that will turn Roger's business and personal life around. The story follows not only their weekly meetings at the office but also the application of each principle: Recharge vs. Discharge View Family as a Blessing, Not a Responsibility Pray, Don't Pout Pass It Around Don't Spend, Invest! Leave a Legacy The Janitor's message will capture your mind and heart; stimulate meaningful, lasting life-changes; and show you how to influence your family, neighbors, and coworkers while experiencing business and life to the fullest.
