Don't mealy mouth, but don't assault the listener. One of my favorites (which actually is in the book) when presenting an idea or saying almost anything is, "Does that make sense?" Now you're the one who is

being validated, not the listener, "What don't you understand about what I just said." This could be a valuable reference for someone just getting started in business, but if you've been in management for a few years and are still there, you've already got this figured out. 1 of 1 people found the following review helpful.
