Dukgeun Ahn : The Legal and Economic Analysis of the WTO/FTA System (World Scientific Studies in International Economics) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Legal and Economic Analysis of the WTO/FTA System (World Scientific Studies in International Economics):

The Legal and Economic Analysis of the WTO/FTA System presents a collation of interdisciplinary studies covering a wide range of issues from WTO dispute settlement issues to trade remedy systems and FTA negotiations. The author applies legal as well as economic rationales and methods to analyze core issues in the world trading system and in doing so, sheds an interesting light on various trade issues. The interdisciplinary analysis on WTO and FTA issues provides a unique opportunity to reconsider many conventional trade topics. For instance, the author shows that third country dumping rarely used in the GATT/WTO system may have a new role with economic incentives in the context of FTAs.
