real-estate: Graphene: How a new disruptive technology is changing the world, and we can become rich with it:

The Millionaire Value Investing Guide to Graphene and 2D Material Who hasn't heard about people who restlessly scan the market for stocks that perform extraordinarily? One of the companies that has skyrocketed in the past years is Microsoft. Whatever you'd invested in the 1980s - you became rich within 15 years. In this book, I want to show that a similar scenario is possible. One can become rich by investing in the right stocks. But, not by tricks, cheats or any other miraculous recipe. No. Just by observing the dramatic changes in an area of technology that is so far only known to insiders. We will see the dawn of a fascinating new era. The consequences of the changes ahead of us will change our world much more than any event before. Whoever invests in at an early stage could make a lot of money.
