A must read for anyone wanting an overview of leadership that does not lose depth as it covers breadth.0 of 0 people found the following review helpful. Five StarsBy Andrew NelsonPerfect for the person wanting a comprehensive review of the leadership literature0 of 0 people found the following review helpful. Item as described.By CustomerBook was in good condition but received a few days after the expected date of arrival.Overall satisfied.

With contributions from leading authors in the most important areas of current research, this book provides insight into

the streams that are driving leadership theory and practice today. The Second Edition provides students with an updated and complete yet concise handbook that solidifies and integrates the vast and disparate leadership literature.

I found the 2nd Edition of *The Nature of Leadership* to be a thorough examination of leadership with an additional focus on prompting researchers and practitioners to move toward theory integration as a means of further advancing the study in this field. Theory building and theory integration involving levels of analysis is no simple task to accomplish, but *The Nature of Leadership* provides an excellent road map for those interested in both. -Matthew Upton, (2012) "The Nature of Leadership", *European Journal of Training and Development*, Vol. 36 Iss: 5, pp.562 - 564 (Matthew Upton 2012-06-19) Each chapter concludes with several discussion questions, supplementary readings (including notes and case studies), and extensive references, all of which makes this book a must for serious upper-level undergraduate and graduate students of leadership. Summing Up: Highly recommended. Outstanding Title. (M. J. Day is the Woodside Professor of Leadership and Management at the University of Western Australia Business School. Prof. Day has published more than 75 journal articles, books, and book chapters, many pertaining to the core topics of his primary research interests in leadership and leadership development. He is the lead author on the recently published book titled, *An Integrative Approach to Leader Development: Connecting Adult Development, Identity and Expertise* (Routledge, 2009) and is presently editing *The Oxford Handbook of Leadership and Organizations* with an expected publication date of 2012. Day serves as an Associate Editor of the *Journal of Applied Psychology* and is on the editorial boards of *Human Performance*, *Journal of Management*, *Leadership Quarterly*, *Organizational Behavior and Human Decision Processes*, *Organizational Psychology*, and *Personnel Psychology*. He is a Fellow of the American Psychological Association and the Society for Industrial and Organizational Psychology. John Antonakis is Professor of Organizational Behaviour in the Faculty of Business and Economics of the University of Lausanne, Switzerland. Professor Antonakis' research is currently focused on predictors of leadership, leadership development, strategic leadership, social cognition, as well as on causality. He has published over 40 book chapters and articles including in journals such as *Science*, *Harvard Business Review*, *Psychological Science*, *The Leadership Quarterly*, *Academy of Management Learning Education*, *Human Relations*, *Personality and Individual Differences*, among others. He has co-edited two books: *The Nature of Leadership*, and *Being There Even When You Are Not: Leading Through Strategy, Structures, and Systems*. Antonakis is Associate Editor of *The Leadership Quarterly*, and is on the editorial boards of *Academy of Management*, *Journal of Management*, *Organizational Research Methods*, and *Journal of Management Studies*, among others.
