From Routledge : The New and Changing Transatlanticism: Politics and Policy Perspectives (Routledge Studies in Governance and Public Policy) before purchasing it in order to gage whether or not it would be worth my time, and all praised The New and Changing Transatlanticism: Politics and Policy Perspectives (Routledge Studies in Governance and Public Policy):

The European Union and the US are currently negotiating the Transatlantic Trade and Investment Partnership (TTIP), with potentially enormous economic gains for both partners. Experts from the European Union and the US explore not only the groundwork laid for TTIP under the "New Transatlanticism," but also the key variables—economic, cultural, institutional, and political—shaping transatlantic policy outcomes. Divided into four parts, Part I, consisting of three chapters, contextualizes the transatlantic relationship with an historical survey, contemporary foreign relations and policy, and cultural dynamics. Together, these chapters provide the background for understanding the evolving nature of the EU–US relationship. Part II of this volume focuses on governance and comprises two chapters—one on transatlantic governance and the other administrative culture. Part III consists of six policy chapters: competition, trade, transport, mobility regimes, financial services regulation, and GMOs. Part IV, consisting of three chapters, explores prospects and challenges associated with transatlanticism, including the TTIP. The last chapter concludes with lessons learned and future challenges with respect to policy convergence; the nature of the EU–US relationship; power, resources, and bargaining within the transatlantic partnership; and, an assessment of the future of deeper cooperation and integration. This insightful account into policy cooperation between the EU and the US is a welcomed resource for policy specialists oriented toward comparative public policy wishing to enter the arena of Transatlantic Studies.

"In a world of more diffuse power and principles, Europeans and Americans are challenged to reposition their partnership for the 21st century. Yet they face a mismatch between the nature of the challenges and the institutional frameworks, strategic-action capacity, and practical tools at their disposal. This volume offers new insights into the governance of transatlantic relations and the evolving nature of the U.S.-EU partnership." Daniel S. Hamilton, Center for Transatlantic Relations, Johns Hopkins University SAIS "This is an interesting and informative collection of articles. I highly recommend the volume to a wide audience of those interested in transatlantic relations." Joseph A. McKinney, Baylor University

About the Author Laurie Buonanno is Professor of Political Science and Public Administration at SUNY Buffalo State and directs the postgraduate public administration division. She is a specialist in comparative public policy. Natalia Cuglean is Lecturer at the Faculty of History and Philosophy, Babe-Bolyai University, Romania.
