Powerfully Simple, Simply PowerfulBy Chance EncountersAfter searching for business plan books far and wide, I took a chance on this book because of its stellar reviews. I'm so glad I did! Hands down one of the most useful, clear, example-laden texts I've ever seen. It's concisely written, with nothing wasted (no rah-rah fluff or needless jargon) and its very brevity inspires action to complete the process in a timely manner. I've heard of the OGSM process before, and even used it on occasion in my former corporate work, but my understanding has now solidified and the process proved thought-provoking and inspiring on both professional and personal fronts. If you are looking to create a concise business plan for a new venture, or to expand an existing venture intelligently, buy this book.0 of 0 people found the following review helpful. A practical guideBy Bartek JaslikowskiA quick but very practical read explaining the basics of OGSM. Very useful in today's fast-paced business world. Have a good read!0 of 0 people found the following review helpful. Five StarsBy ulziiSo good, practical, nice examples.
