1 of 1 people found the following review helpful. Exceeded expectationsBy N JaiganeshI read some

reviews/endorsements before buying this book, they sounded better than anything else so I gave it a shot, but even so I still half expected to be let down. However, not only did this book tick each and every box that it promises - helping me improve my CV beyond recognition, but on top of that it exceeded all expectations (including areas I didn't even expect). This is not only the best non-fiction book I've ever read in terms of practicalities/usefulness, but it is also by far and away the most encapsulating non-fiction book I've ever read full stop. It was a pleasure to read, not a chore, and I would certainly recommend it. 0 of 0 people found the following review helpful. A management consultant's view of this excellent book
By nonenoo
As a management consultant of long standing with major consultancies, I have recast many consultants' CVs to reflect their benefits to individual clients and their specific requirements, thereby successfully creating business-winning proposals. This is exactly what CV writing is about and this book is a first-class guide to doing exactly that. JR.
