Technology, Engineering, and Social Studies*):

The Political Economy of EEC Relations with African, Caribbean and Pacific States is a collection of papers that covers various areas of concern in the relationship between the European Economic Community (EEC) and African, Caribbean and Pacific States (ACP). The text first covers the political economy of the EEC-ACP relations, and then proceeds to discussing industrialization and stabilization schemes. In the last part, the selection deals with concerns in technology transfer, trade, and market access between the EEC and ACP. The book will be of great use to economists, sociologists, and political scientists.
